Batedeira, founded in 1994, is one of the first samba bands in The Netherlands. The band consists of 25 musicians and has a large following. The enthusiasm and uplifting style of music are the typical characteristics of Batedeira.

Batedeira is a hit on festivals and events. The combination of a band (bateria) with dancers (passistas) makes us quite unique. Batedeira offers a diverse mix of different Brazilian music styles such as samba, samba reggae, samba funk, samba-E, maracatu and coco. Naturally Batedeira uses traditional Brazilian percussion instruments.

The majority of the musicians of Batedeira is a member for more than 10 years, guaranteeing a high quality of performance. New members are recruited from their own workshops.

Batedeira cooperates with typical Brazilian dancers and dynamic street dancers, creating a colorful show that is a delight for the eye. You quickly imagine yourself in the tropical atmosphere of Brazilian carnival!
